

Speedo Models Installation Guide

This is the Speedo Models web application installation guide. This guide will help you set up the necessary environment and access the Speedo Models web app on your desktop and mobile devices.

System Requirements

Desktop Browsers:

- Google Chrome (latest version)
- Microsoft Edge (latest version)

Mobile Browsers:

- Google Chrome (latest version) on Android devices
- Safari (latest version) on iOS devices

Installation Steps

1. Accessing the Speedo Models Web App on Desktop

1. Google Chrome:

- Download and install Google Chrome from their official website.
- Open Google Chrome and enter the URL of the Speedo Models web app in the address bar.
- Press Enter on the keyboard to load the web app.

2. Microsoft Edge:

- Download and install Microsoft Edge from their official website.
- Open Microsoft Edge and enter the URL of the Speedo Models web app in the address bar.
- Press Enter on the keyboard to load the web app.

2. Accessing the Speedo Models Web App on Mobile

1. Google Chrome on Android:

- Download and install Google Chrome from the Google Play Store.
- Open Google Chrome and enter the URL of the Speedo Models web app version in the address bar.
- Tap Go to load the web app.

2. Safari on iOS:

- Safari is pre-installed on all iOS devices. Ensure it is updated to the latest version via the App Store.

- Open Safari and enter the URL of the Speedo Models web app in the address bar.
- Tap Go to load the web app.

Extra Information

- Ensure that your browsers are always updated to the latest versions for the best performance and security.
- If you encounter any issues while accessing the web app, try clearing your browser cache and cookies.
- For optimal performance, it is recommended to use a stable internet connection.
